

# WELCOME TO eTS Academy

# TRAVEL SAFETY. SOLVED.

We all understand the importance of Travel Safety training, but how can you make sure that all of your people know how to stay safe? You might have the best training content in the world, but how can you make it both scalable and cost-effective?

That's why we developed eTS Academy - the most cost-effective training solution, ever. eTS Academy is packed with benefits, but there are two key benefits you need to know about to get you started. First, eTS Academy gives you a full audit trail of who has watched what content, allowing you to meet even the strictest measures of corporate compliance. Second, all of the content within eTS Academy has come from decades of Travel Safety experience, so you know that your people are getting best-in-class content delivered to them in a language and format that they can understand.

## FULLY AUDITABLE, FULLY COMPLIANT

There are lots of things that make eTS Academy unique, but the admin console is what truly sets it apart from everyone else. It's self-managed, giving you full control over what content is in the app, and who gets to see it. More than that, everything is fully auditable, meaning you can see who watched what, and when. With eTS Academy, compliance is a guarantee, guaranteed.
